SEATING CAPACITY FOR U-SHAPED, V-SHAPED, AND COMMITTEE CONFERENCE TABLES

What size should my table be? The guidelines below are a great start.

U - SHAPED

V - SHAPED

HEAD or COMMITTEE

Users	Length w/ 32" per person	Length w/ 36" per person	Length w/ 48" per person
4	128	144	192
6	192	216	288
8	256	288	384
10	320	360	480
12	384	432	576
14	448	504	672
16	512	576	768
18	576	648	864
20	640	720	960
22	704	792	1056
24	768	864	1152
26	832	936	1248
28	896	1008	1344
30	960	1080	1440

All of these conference table shapes seat people along their outer edges. Our chart shows the overall length required to seat people at three different spacings:

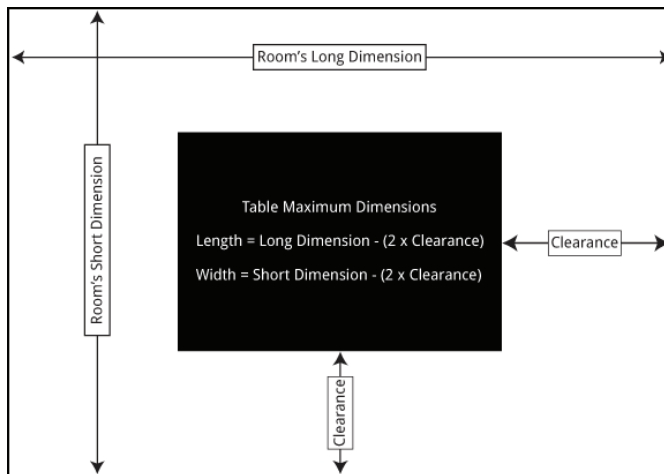

32" for situations where maximum capacity is required; 36" where some space between users is wanted; and 48" where a lot of space is needed (like legislative and judicial tables).

The length shown in the chart to the right, is the sum of the length of the outside edges. The proportions of these tables must always be designed for the room and the use.

U and V shape are excellent shapes for videoconferencing, as is the committee table. Committee tables are also particularly impressive for public facing meetings.

SEATING CAPACITY FROM ROOM DIMENSIONS

To determine the dimensions of the free space that can hold the table, so measure the room's length and width and subtract obstructions such as columns and other furniture. The clearance, or space between the table and the closest obstruction, varies with the size of the room.

For spaces up to 16ft long, minimum clearance is 42", while 48" is recommended.

For spaces up to 22ft long, minimum clearance is 48", while 60" is recommended.

For spaces over 22ft long, minimum clearance is 60", while 72" is recommended.

Subtract twice the clearance from the length and width of the room to find the table's maximum dimensions.

PAUL DOWNS

CUSTOM FURNITURE

Paul Downs insists that fine craftsmanship happen in everything we do, from the first call to the moment you start using your finished project.

A/V INTEGRATION

Audio/video integration is mandatory in the modern conference space. We use our extensive engineering experience to integrate any required technology and conquer the wiring mess.

LOGOS & BRANDING

Logos work particularly well in customer-facing spaces, and tables that are seen in videoconferencing. We deploy a variety of methods to make logos - there's a way to meet a wide range of budgets.

HARD TO FIT SPACES & UNUSUAL SHAPES & SIZES

Rooms come in an infinite variety of sizes and shapes. Custom sizing is often the only way to fit these spaces. Our one-off manufacturing efficiency means that no solution is impossible.

ELEGANT MODULAR

Adaptable doesn't need to mean clunky. We build 100s of modular tables each year for clients who use their rooms flexibly. Along with their good looks, our tables can fold, roll, handle heavy wire loads, and much more.

UNIQUE & FANCY

Need something that wows? We can help! Bring us your best ideas or let us dazzle you with ours. We do what other manufacturers can't or won't. If you're tired of hearing "NO" to your ideas give us a call - we'll make it happen.

For help designing your custom conference project, call us today at (610) 239 - 0142 or email us info@pauldowns.com.
