SEATING CAPACITY FOR KEYSTONE-SHAPED CONFERENCE TABLES

What size should my table be? The guidelines below are a great start.

KEYSTONE

Users	Size (feet)	Size (inches)	Min. Room Size (feet)
3	4 x 5	48 x 60	11 x 12
5	4'6" x 6'	54 x 72	11'6" x 13'
7	5 x 8	60 x 96	12 x 15
9	5 x 10	60 x 120	12 x 17
11	5 x 14	60 x 168	12 x 21
13	5'6" x 16'	66 x 192	12'6" x 23'
15	6 x 18	72 x 216	14 x 26
17	6 x 20	72 x 240	14 x 28
19	6 x 22	72 x 264	14 x 30
21	6 x 24	72 x 288	16 x 34
23	7 x 26	84 x 312	17 x 36
25	7 x 28	84 x 336	17 x 38
27	8 x 30	96 x 360	18 x 40
29	8' x 32'6"	96 x 390	18' x 42'6"

The user capacity is based on a comfortable spacing of 30" per person. For boardroom use, 36" per person is appropriate. This dimension is also good for round tables.

In situations where users need more space (for instance, meetings where everyone has a computer or documents), 42" is appropriate. For luxury situations, 48" is preferred.

The keystone shape is standard for videoconferencing. The wide end of the table faces the cameras and screen and is not used for seating. The capacity is identical to rectangles, but with one person removed.

This chart shows the minimum recommended width at the wide end. Very large and wide keystones are usually built with an open center.

SEATING CAPACITY FROM ROOM DIMENSIONS

To determine the dimensions of the free space that can hold the table, so measure the room's length and width and subtract obstructions such as columns and other furniture. The clearance, or space between the table and the closest obstruction, varies with the size of the room.
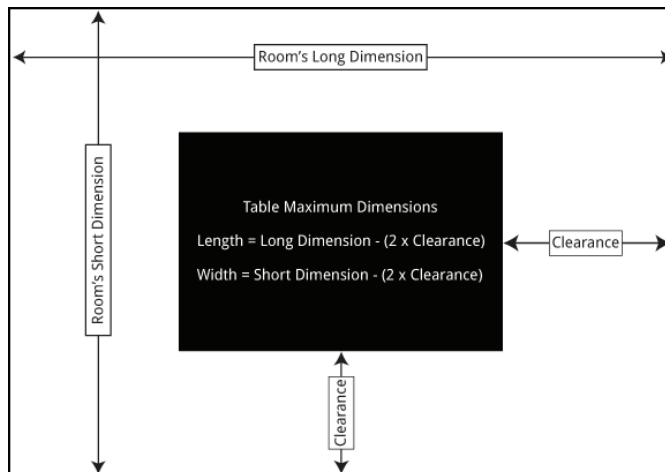

For spaces up to 16ft long, minimum clearance is 42", while 48" is recommended.

For spaces up to 22ft long, minimum clearance is 48", while 60" is recommended.

For spaces over 22ft long, minimum clearance is 60", while 72" is recommended.

Subtract twice the clearance from the length and width of the room to find the table's maximum dimensions.

PAUL DOWNS
CUSTOM FURNITURE

Paul Downs insists that fine craftsmanship happen in everything we do, from the first call to the moment you start using your finished project.

A/V INTEGRATION

Audio/video integration is mandatory in the modern conference space. We use our extensive engineering experience to integrate any required technology and conquer the wiring mess.

LOGOS & BRANDING

Logos work particularly well in customer-facing spaces, and tables that are seen in videoconferencing. We deploy a variety of methods to make logos - there's a way to meet a wide range of budgets.

HARD TO FIT SPACES & UNUSUAL SHAPES & SIZES

Rooms come in an infinite variety of sizes and shapes. Custom sizing is often the only way to fit these spaces. Our one-off manufacturing efficiency means that no solution is impossible.

ELEGANT MODULAR

Adaptable doesn't need to mean clunky. We build 100s of modular tables each year for clients who use their rooms flexibly. Along with their good looks, our tables can fold, roll, handle heavy wire loads, and much more.

UNIQUE & FANCY

Need something that wows? We can help! Bring us your best ideas or let us dazzle you with ours. We do what other manufacturers can't or won't. If you're tired of hearing "NO" to your ideas give us a call – we'll make it happen.

For help designing your custom conference project, call us today at (610) 239 – 0142 or email us info@pauldowns.com.
